Mothers Day Celebration

“ A mother's love for her child is nothing else in the world”

Every year the second Sunday of May is celebrated as mother's Day across the world. This year it falls on May 14th. Mother's Day is celebration honoring the mothers of the family. Mothers do the most demanding jobs in the world selflessly and with no complains. In order to show their compassion respect and affection towards their moms the students enthusiastically performed the various activities. The zealous students of classes III-V expressed their feelings by making beautiful bookmarks and cards respectively. The tiny tots of class II decorated a tulip made out of (origami) paper folding. The bubbling kids of class I wrote the qualities of their mothers on an ice-cream decorated it.
