

## St. Cecilia's Public School Universe in the Dome – Cecilians participation in mobile Planetarium show.

Cecilians Tushar Nain and Akshit Gupta of class XII had won III position at IIT Delhi Technovations TRYST 2018 for school students with scientific temperament and innovative mindset. The students received certificates and a gift voucher of ₹ 50,000 for one day Mobile Planetarium show for the school.

In continuation to their noble achievement, students of class V and VI on 11.12.2018 participated in Digisky mobile Planetarium which was a school theatre and cinema experience all rolled in to one. Class VI students enjoyed the show from classical to modern skies 'Galileo's sky' while Class V students were thrilled to watch Puppy on The Moon –Directions Up and Down. Teachers also witnessed the 3 Dimensional magic of the show-Taare Zameen Par.

The holistic concept of Planetarium Education provided a solution to the inherent impediments associated with astronomy teaching. The students learnt many astronomical facts about the cosmos to explore, learn, discover and enjoy.

It was indeed a learning and enriching experience for all students.
