

# St. Cecilia's Public School Science Exhibition Class IV and V

Science Exhibition was held on 28.8.18 in which students creatively showcased their out-of-the-box thinking by coming up with various working models. All models were very well explained by the confident participants and some participants even demonstrated the working of their models.

Honourable Madam Manager, Academic Advisor Sir and Madam Principal appreciated the efforts of students as well teachers.

Madam Principal further asked the students to work on the same model and improvise it further to next level.
