

St. Cecilia's Public School

Class Presentation of 1A and 1C – Learning with Tales

St. Cecilia's Public School organised a class presentation by the students of Classes 1A and 1C on 14 October 2026, based on the theme "Learning with Tales". Inspired by Little Red Riding Hood and set in the imaginative world of the Eco Kingdom, the presentation combined storytelling with an important message of environmental awareness. The event offered a delightful opportunity for the young learners to display their talents, express their ideas, and communicate meaningful lessons through the world of storytelling.

The occasion was graced by the presence of the esteemed Director Sir Mr. Saroop Singh, Madam Principal Inderpreet Bhumra, Academic Advisors, Pre-Primary Headmistress, and Coordinators. The dignitaries were welcomed with green saplings as a gesture of appreciation, representing growth, sustainability, and the continuous journey of learning.

The programme featured a captivating blend of dramatic enactments, music, and lively dance performances. Through the story of Little Red Riding Hood, the young performers brought attention to the need to preserve nature and safeguard the environment. Their performances highlighted simple yet significant practices such as conserving water, reducing plastic usage, and maintaining clean surroundings. With expressive performances and spirited participation, the young learners demonstrated how familiar stories can inspire thoughtful choices and positive change.

Madam Principal offered her insights on the importance of nurturing environmental awareness and instilling a sense of responsibility towards protecting our planet from an early age. Emphasising the role of the school and parents in shaping environmentally conscious and responsible citizens, she appreciated the students' enthusiastic efforts in bringing the enchanting world to life. Ma'am's inspiring words added a meaningful and encouraging touch to the occasion, reinforcing the message that every small step counts in saving our planet Earth.

The event culminated in a colourful grand finale that brought together the central message of the presentation. The students reminded the audience that protecting the planet is a shared responsibility and that small, thoughtful actions can contribute to a healthier and more sustainable world.
