

St. Cecilia's Public School
Social Media Day Assembly
Class IV D

The students of **Class IV-D** presented a special assembly on **16 July 2026** to celebrate **Social Media Day**. The assembly aimed to create awareness about the responsible use of social media by highlighting both its advantages and disadvantages. It began with an inspiring welcome and important messages encouraging everyone to think before they click, stay safe online, and spread kindness.

Through engaging role plays, students demonstrated how social media can be a powerful tool for learning, creativity, and staying connected with family and friends. They also sensitized the audience about the dangers of fake news, cyberbullying, scams, and excessive screen time, while sharing practical tips for safe and responsible online behaviour.

The assembly concluded with a lively dance performance carrying the message, "**Use It Wise, Use It Right,**" reminding everyone to use social media thoughtfully and responsibly. The informative and well-presented programme was appreciated by all.
