Gratitude

Assembly Conducted on 6 July 2026

The students of Class XI Science (Sections A & B) conducted the morning assembly in the Basement Hall on the inspiring theme 'Gratitude'. The assembly aimed to encourage everyone to appreciate the blessings in life and cultivate the habit of being thankful instead of complaining.

The programme commenced with the prayer, followed by the Thought of the Day and the News Headlines.

An engaging interactive speech highlighted the importance of gratitude in shaping a positive outlook towards life.

A heartfelt poem further reinforced the message, while a thought-provoking skit beautifully conveyed that gratitude brings happiness, strengthens relationships, and helps us value what we have.

A beautifully designed banner measuring 11 feet × 2 feet bearing the inspiring thought, "Gratitude makes us humble, and humbleness is the key to success," was displayed throughout the assembly, perfectly complementing the theme and creating a positive ambience.

The assembly concluded with the National Anthem, leaving the audience inspired to practise gratitude in their daily lives. The presentation by the students of the XI Science Stream was well organised, meaningful, and appreciated by all.
