St Cecilia's Public School
DRAWING COMPETITION IN MS-PAINT
(CLASS 3 TO 5)

Geekoz IT club of the school successfully organized a **Drawing Competition in MS-Paint** on **5th and 6th May 2025** for students from **classes 3 to 5** to showcase their artistic skills using digital tools.

Objective: The primary goal of the competition was to foster creativity and innovation among young students while introducing them to digital art techniques. It provided a platform for participants to express their imagination through engaging themes using software-based painting tools.

Event Highlights:

- The competition was held over two days, with enthusiastic participation from students eager to express their creativity.
- **Three exciting themes—"Ocean Creatures," ,"E-Vastra(Traditional Dress Design of Indian States)," and "Dream Place to Visit in Summer Break"**—were chosen to inspire young minds.
- Participants used software painting tools to craft their designs, bringing their ideas to life with vibrant colors and unique compositions.
- A panel of judges assessed entries based on creativity, originality, and presentation.
- The event fostered a fun and engaging learning environment, promoting artistic expression and technical skills among young learners.

The competition was a grand success, celebrating the intersection of creativity and technology while encouraging students to explore digital art as a means of storytelling and expression.
