

St. Cecilia's Public School

Declamation

Date: 3 Feb'26

Class IX

With the aim of making Mathematics more engaging and expressive, the Mathematics Club of St. Cecilia's Public School organized a Mathematics Declamation Competition for the students of grade 9. The event aimed to enhance students' oratory skills, confidence, and appreciation for the subject. It fostered critical thinking enabling students to think and express their ideas creatively.

The topics of the competition were "From Time to Money, Maths is everywhere", "गणित है जीवन का आधार" which beautifully emphasised the importance of Mathematics in every sphere of life. Mathematics plays a vital role in daily activities such as managing time, budgeting money, business transactions, architecture, science, and technology. Through real-life examples and logical explanations, the students effectively conveyed that Mathematics is not merely a subject confined to textbooks but a foundation of practical living.

The participants spoke confidently and presented their well-structured speeches. The declamation competition proved to be an enriching and inspiring experience for all. The participants of Class 9 showcased remarkable confidence, clarity of thought, and strong stage presence while speaking.

The event not only enhanced their public speaking skills but also deepened their understanding of how mathematics forms the foundation of our daily lives.
