

# Assembly Report

## Topic : Earth Day and Ambedkar Jayanti

Date : 16.04.2026

Class V B

A morning assembly was conducted in the school to celebrate Earth Day and Ambedkar Jayanti. The assembly was presented by the students of Class 5 B.

The assembly began with the prayer, followed by the thought of the day. Highlighting the importance of protecting our environment and respecting equality in society, a brief introduction was given about Earth Day, emphasizing the need to save nature, reduce pollution, and plant more trees. A pledge was taken by all students to protect the environment by reducing waste, saving water, and keeping surroundings clean.

The students also paid tribute to Dr. B.R. Ambedkar by sharing his life achievements and his contribution to the Indian Constitution. His message of equality, justice, and education was beautifully explained.

The highlight of the assembly was a nukkad natak (street play) on Earth Day. Through this act, students showcased the harmful effects of pollution, deforestation, and careless human activities. The play also delivered a strong message about saving the Earth for future generations. The assembly concluded with the slogans on Earth day which created awareness among students about their responsibilities towards the environment and society.
