Quiz on Environmental Awareness

The Quiz Club (Middle Wing) conducted a quiz on Environmental Awareness for classes VI-VIII on 19th April 2025, which proved to be a resounding success. The quiz aimed to raise awareness about environmental issues and promote sustainability among students. Participation was enthusiastic, with students showcasing their knowledge on topics like climate change, conservation, and eco-friendly practices. The quiz not only tested their understanding but also sparked interest in sustainability, encouraging critical thinking. By engaging in this activity, students developed a deeper appreciation for environmental issues and their role in mitigating them.

Overall, the quiz was beneficial, fostering awareness, teamwork and a sense of responsibility among the young participants. This initiative aligned with our school's commitment to environmental stewardship and empowered students to become eco-conscious citizens, contributing to a more sustainable future.
