

**St. Cecilia's Public School**  
**IT-Themed Fancy Dress Competition**  
**Class I-II**

Geekoz IT Club successfully hosted an exciting **IT-themed Fancy Dress Competition** featuring enthusiastic participation from students of **Class 1 and Class 2**. This event aimed to spark creativity and curiosity among young learners while introducing them to the fascinating world of information technology in an engaging manner.

### **Objective**

The competition was designed to:

- Foster an early interest in **technology and innovation**.
- Encourage students to explore different **roles in the IT industry**, such as famous personalities, devices, social networking sites and AI specialists.
- Develop **confidence, creativity, and presentation skills** through imaginative costumes and performances.

### **Event Highlights**

The competition saw vibrant participation, with students dressed as **computer, social networking sites, laptops, IT famous personalities, and futuristic AI companions**. The performances were filled with creativity and enthusiasm, capturing the essence of IT advancements and their impact on society.

The judges praised the participants for their **efforts, innovative costume designs, and engaging presentations**, making this event a memorable success. The winners were awarded certificates and medals, celebrating their outstanding creativity and knowledge.
