

St. Cecilia's Public School
MAP ACTIVITY
CLASS 4 & 5
DATE: 30.4.25

The map activity was designed to enhance students understanding of geographical knowledge by engaging them in the practical task of identifying and marking Asian countries , major oceans and continents on a map using atlas. Students actively participated and demonstrated improved understanding of Asia's geographic position, its neighbouring oceans and the relative location of the continents. The hands-on approach made the learning experience more engaging and memorable. The activity was successful in meeting its objectives. It promoted interactive learning and helped students build confidence in reading and interpreting maps.
