

**St. Cecilia's Public School**  
**Quiz Club**  
**Primary Wing**  
**Map Activity**  
**Class IV and V**  
**30.4.24**

Maps can be used to explore a multitude of topics and can incorporate visual learning, spatial thinking and quantitative skills into a lesson. Maps invite curiosity, encourage exploration and inspire problem solving. Keeping this in mind, the quiz club organized a map activity for the students of class IV and V. The children participated enthusiastically in the hands - on activity conducted in all the sections. The students of class IV marked the continents and oceans on the physical map of the world, using their colours and markers. On the other hand, the students of class V located and marked the European countries on the political map of Europe. The map activity proved to be informative and enjoyable for the students.
