

St. Cecilia's Public School

Maths Quiz

Date : 08.12.25

Classes IX-XI

Mathematics is the music of reason.

— James Joseph Sylvester

The Mathematics Club of St. Cecilia's Public School conducted a General Mathematics Quiz for the selected students of Classes IX, X and XI with the objective of strengthening analytical thinking and enhancing conceptual clarity. The event was organised in a well-structured and engaging manner, creating an atmosphere of healthy competition and intellectual curiosity among the participants. Students participated with enthusiasm and demonstrated a strong interest in the subject.

The questions were thoughtfully designed to test conceptual understanding, logical reasoning, and application of mathematical concepts. They encouraged students to think critically and approach problems with confidence and accuracy. The participants displayed focus, teamwork, and the ability to manage time effectively, making the quiz both challenging and enjoyable.

Overall, the Mathematics quiz proved to be a valuable academic experience for the students of Classes IX, X and XI. It helped reinforce classroom learning, improve problem-solving skills, and boost confidence in handling complex mathematical concepts. The event conducted by the Mathematics Club was successful and motivating, inspiring students to further strengthen their interest and proficiency in mathematics.
