

St. Cecilia's Public School
Class XII Educational Visit to National Science Centre, New Delhi

On 15th May 2025, Class XII and XI Science Stream visited the National Science Centre, New Delhi under the able supervision of their teachers. The school had organized the trip to promote experiential learning and scientific curiosity to integrate classroom learning with real world scientific applications. The students explored several fascinating exhibits across multiple galleries including Hall of Nuclear Power, Human Biology Gallery, Emerging technologies, Information and communication technology gallery. The students received a dynamic learning experience as they witnessed live demonstrations, hands on experiments and interactive displays. Students were especially enthusiastic about the 3D Science show and the Science on sphere presentation.

The visit was not only informative but also inspiring and catalyzing greater interest in scientific research and innovation among students. The faculty members accompanying the students ensured active engagement and guided discussions to reinforce key scientific concepts. The faculty of Science Deptt and students expressed their gratitude for Madam Principal for organizing this enriching educational experience.
