

**St. Cecilia Public School  
Scientia Club  
National Space Day**

The Scientia Club of St. Cecilia Public School celebrated the officially recognized National Space Day on **22nd August 2025**, honoring India's incredible strides in space exploration and technology.

The event was held in the **school basement**, where students took part in **on-the-spot model-making** based on space themes. Working in teams, they built creative models of rockets, satellites, space rovers, and futuristic stations using basic materials. The activity promoted hands-on learning and applied key **STEM (Science, Technology, Engineering, Mathematics)** concepts.

Students also presented posters on ISRO missions like **Chandrayaan-3, Aditya-L1, and Gaganyaan**, reflecting both their knowledge and national pride.

The event was a great success, inspiring curiosity, innovation, and scientific thinking among all participants.
