

St. Cecilia's Public School
Presentation Competition
Geekoz IT Club
(Classes IV–V)

Geekoz IT Club successfully organized a series of exciting and creative competitions for students of Classes I to V. The events were conducted to enhance students' creativity, technical skills, confidence, and presentation abilities.

On **27th January 2026**, a **Presentation Competition** was conducted for **Classes IV and V** on the topic **“Pariksha Mein Safalta.”** Students prepared impressive presentations highlighting effective study habits, time management, stress management, and positive thinking. The participants confidently presented their ideas using digital tools, showcasing excellent communication and technical skills.

On **2nd February 2026**, drawing competitions were organized for junior classes using different software applications.

- **Class I and Class II** students created beautiful **Christmas scenes** using **Tux Paint**. The young learners enthusiastically designed snowmen, Christmas trees, Santa Claus, and colorful decorations, displaying remarkable imagination and creativity.
- **Class III** students designed a **Patriotic Scene** using **Paint 3D**. The students creatively illustrated themes of national pride, incorporating the national flag, monuments, and inspirational messages with vibrant colors and thoughtful compositions.

The competitions witnessed active participation from all students. The activities not only encouraged digital creativity but also helped students build confidence and develop their computer skills in a fun and engaging way.

Overall, the events were a great success .Geekoz IT Club continues to provide such enriching platforms for young learners to explore their talents and enhance their technical knowledge.
