

St. Cecilia's Public School

Presentation Competition

Date	13.05.26
Name of event	Presentation Competition
Topic	>>Rise of AI:Friend or Foe? >>Social Media:Helping minds or hurting focus? >>Emerging technologies shaping the future
Software used	MS-Powerpoint
Classes	VII,VIII

The **Presentation Competition** was organized for the students of classes VII and VIII to enhance students' research and digital skills. Participants prepared the presentations on any one of the given topic.

Students showcased their creativity by designing informative and visually appealing presentations supported by relevant facts, images, and multimedia elements. They confidently shared their ideas, analyzed the benefits and challenges of modern technologies. The judges evaluated the presentations based on content, creativity, slide design, confidence, and overall presentation skills.

The competition provided an excellent platform for students to develop critical thinking, digital literacy, and effective presentation skills. It was an engaging and informative event that inspired participants to explore the impact of technology on society .Overall, the competition was a grand success and was appreciated by students, teachers, and judges alike.
