

St. Cecilia's Public School
QUIZ ON SUPERLATIVES
CLASSES 3 TO 5
DATE: 7.5.25

The Superlatives of Geography Quiz was designed to engage children aged 8-13 with fun and educational content focusing on geographic extremes and records. It was organized to test and enhance students knowledge of geography, particularly focusing on superlatives such as the highest mountains, longest rivers, largest continents and most unique geographical features around the world. The quiz introduced the children to global geography in an interactive format and helped them to understand key geographical facts through superlatives. The quiz enhanced curiosity about the natural world.
