

St. Cecilia's Public School Movie Making Competition Classes-XI-XII

Date of submission	First week of July
Topic	Gender Equality/Importance of Morality and Character/Adolescents addiction to mobile phones

Women earn approximately 23% less than men globally. (Source: ILO)

71% of men and women believe that men should have more right to jobs when work is scarce. (Source: Pew Research Center)

Women hold only 27% of managerial positions globally. (Source: ILO)

These statistics highlight the complex and multifaceted nature of gender inequality, and the need for comprehensive solutions to address these issues.

The Geekoz IT-Club organized a **Movie Making Competition** for the students of Classes XI and XII to promote creativity, awareness, and digital skills among students. The initiative aimed to provide students a platform to express their thoughts on socially relevant issues through short films.

Guidelines:

- Each entry could include a maximum of 5 students.
- The film had to be original and within a duration of 3–5 minutes.
- The movie could be in English or Hindi.
- Students were instructed to use decent language and gestures; inappropriate content could lead to disqualification

This competition not only encouraged students to explore film-making as a creative medium but also helped them delve deeper into important societal values and concerns.

The event emphasized hands-on learning, integrating creativity, teamwork, and digital fluency to deepen understanding of participants.
