

St. Cecilia's Public School AI Workshop at Dr. Ambedkar International Centre

80 students of St. Cecilia's Public School attended an informative **AI Workshop** on **17.11.25** and 45 students attended the workshop on **18.11.25** held at the **Dr. Ambedkar International Centre, New Delhi** aimed at familiarising them with emerging trends and applications of Artificial Intelligence. The event provided students with valuable exposure to real-world AI innovations.

The inaugural session featured distinguished speakers including **Mr. Dharmendra Pradhan (Education Minister)**, **Mr. Himanshu Gupta (Director-CBSE)** and **Mr. Santosh Viswanathan (MD, Intel India)**. Students got insight about space exploration by well known astronaut **M. Shubhanshu Shukla** and got to know about Gagan Yatri during his space journey by video presentation.

Students enthusiastically visited various **AI stalls**, where they explored about machine learning tools, solving complex problems using blocks without coding, AI-driven education platforms, and smart automation systems.

A significant highlight of the event was the introduction of the **पढ़ AI** app, launched by the **Hon'ble Minister of Electronics and IT, Mr. Jitin Prasada**. The app has been designed to support AI-based learning, promote digital education, and make advanced technological concepts accessible to students.

Meanwhile, teachers attended a **panel discussion** going on among AI experts, academicians, and industry professionals. Overall, the AI Workshop proved to be a highly enriching experience for both students and teachers. It sparked curiosity, encouraged innovation, and strengthened the understanding of AI's growing role in education and society.
