It is believed that by taking part in this movement ,students will not only be strengthening the cause for the present but also the future generations.

To support the movement, as instructed in the guidelines of the Isha Foundation , all the students of classes IX to XIIth wrote a message in their own language, based on their understanding to the Honourable Prime Minister to look into this area of concern with immediate utmost importance.

Students actively participated in the initiative, as they were convinced towards the need and necessity linked with the cause. Students understood their responsibilities, realise their duties towards Mother Earth and came in full support of this movement , as envisaged by CBSE. The movement soon spread out from the domains of school curriculum to the extending boundaries of human behaviour, human actions and duties of human towards Mother Nature.
