

St. Cecilia's Public School
Square and Cube Recital

Date: 19th May, 2026

Mathematics, rightly viewed, possesses not only truth, but supreme beauty.
~ Bertrand Russell

The Mathematics Club organized an exciting mathematical activity titled “Exponents Elite” on 19 May 2026 for the students of Classes IX and X. The event aimed to enhance students’ mental mathematics skills, improve their speed and accuracy, and develop greater confidence in dealing with exponents and related concepts.

The programme consisted of two engaging recitals — a one-minute Square and Square Root Recital for Class IX and a one-minute Cube and Cube Root Recital for Class X. Students participated with great enthusiasm and demonstrated remarkable preparation, concentration, and confidence while reciting mathematical values within the given time limit.

The activity created a healthy spirit of learning and competition among the students. It encouraged them to strengthen their memory skills, quick thinking abilities, and numerical proficiency in an enjoyable and interactive manner. The participants displayed excellent coordination, discipline, and enthusiasm throughout the event. The event also provided students with an opportunity to overcome hesitation and improve their public speaking and presentation skills.

“Exponents Elite” was a highly informative, engaging, and successful event that made the learning of Mathematics more interesting and enjoyable for students. The recital left the participants motivated and inspired to further strengthen their mathematical abilities.
