**–Carl Sagan**

An exciting on-stage quiz competition was held by the Quiz Club of our school on May 6, 2025, for students of Class 9 and 10. The theme of the quiz was "*The Universe – Unravelling the Mystery*", aimed at fostering curiosity about space and cosmic phenomena. Each team consisted of four members – two students from Class 9 and two from Class 10 – promoting collaboration across Classes.

A total of four teams participated, facing multiple rounds including Multiple Choice, Visuals, and Rapid Rounds etc. The quiz covered fascinating topics like black holes, galaxies, constellations, and space missions. The audience remained engaged and enthusiastic throughout the event. They also participated in the quiz through a special audience round.

Team A, composed of two students each from Class IX A (Kanishqa & Karev Aggarwal) and Class X A (Raj Rishabh Maurya & Arshjot Kaur) emerged as the winner with an impressive score, followed by Team D composed of two students each from Class IX D (Soham Sharma & Gurnoor Kaur) and Class X D (Divji Khurana & Arugesh Aggarwal) as runners-up. The event successfully ignited a deeper interest in astronomy among students.
