

St. Cecilia's Public School

“Website Designing Competition using HTML”

Date and Day	23.07.26 , Thursday
Name of event	Website Designing Competition
Topic	>>TechFest 2026 – Event Website >>Startup India – Young Entrepreneurs >>Human + AI – Shaping Tomorrow
Software used	HTML (Notepad,VS Code)
Classes	XI-XII

A **Website Designing Competition** was organized for the students of Classes **XI** and **XII** to encourage creativity, innovation, and technical skills in web development. The competition provided students with an opportunity to design responsive, user-friendly, and visually appealing websites based on real-world themes.

Participants demonstrated their knowledge of HTML, CSS, JavaScript, and web design principles while creating informative and attractive websites. The judging criteria included creativity, visual appeal, navigation, responsiveness, content organization, originality, and technical implementation.

The websites reflected awareness of technology, entrepreneurship, and the growing role of artificial intelligence in shaping the future. Overall, the Website Designing Competition was a successful and enriching experience, inspiring students to explore emerging technologies and develop practical web development skills.
