Hues of Happiness: Little Cecilians celebrate Red Day

The Pre-Primary Wing was immersed in hues of crimson on 10th July 2026 as our little Cecilians celebrated Red Day with immense zeal and delight.

Our tiny tots looked absolutely resplendent in their red attire. Adding to the festive charm, they brought red-coloured fruits such as apples, strawberries and cherries in their snack

boxes and relished them together. This delightful activity not only heightened the celebratory spirit but also sensitized the children to the importance of healthy eating habits.

The day commenced with a Special Assembly focusing on the symbolism and significance of the colour red — a colour that represents love, energy and positivity. The highlight of the celebration was a charming Ramp Walk. To melodious tunes, the children walked with poise and confidence, showcasing their vibrant attire and radiant smiles, which truly captivated everyone present.

The day concluded on a joyful note, with innocent faces beaming with happiness, warmth and excitement. Our little ones carried back not just memories, but also a deeper appreciation for colours and togetherness.
